Playfair Exercises Option to Acquire a 100% Interest in RKV Copper-Nickel-Cobalt Projects in Norway

Further to its News Release dated March 1, 2019, Playfair Mining Ltd. (PLY-TSX.V) is pleased to announce that it has exercised its option to acquire from EMX Royalty Corporation (EMX-TSX.V) a 100% interest in EMX's contiguous Rostvangen and Vakkerlien projects in South Central Norway.

To exercise the option, Playfair has issued an additional 3 million shares of Playfair stock to EMX, and EMX has transferred 100% of the property to Playfair, subject to a 3% net smelter royalty ("NSR") on the property. Within 5 years, Playfair will have the option to buy back up to 1% of the NSR for \$3 million, leaving EMX with a 2% NSR.

The road to a cleaner environment includes batteries. Batteries use copper, nickel and cobalt.
